RE: APPLICATION FOR THE POSITION OF ICT OFFICER – GRADE NCPD 6 (ADVERT NO.006/2026)

Dear Sir/Madam,

I wish to apply for the position of ICT Officer – Grade NCPD 6 as advertised.

I am currently undertaking an ICT internship placement at the National Council for Population and Development (NCPD) under ICT Authority Kenya graduate in Bachelor of Science in Computer Science (Artificial Intelligence Specialization). Through my academic background, professional certifications, and practical ICT experience, I have developed hands-on skills in ICT infrastructure support, networking, system troubleshooting, application support, technical operations, and user support services.

During my internship at NCPD, I have supported ICT operational activities including installation and configuration of ICT equipment and applications, troubleshooting hardware, software and network-related issues, supporting ICT infrastructure operations, assisting users with technical issues, maintaining ICT documentation, and contributing to service delivery activities. This experience has strengthened my understanding of operational ICT environments and support processes.

Additionally, my previous software development internship and technical projects have strengthened my practical capabilities in system configuration, backend systems support, database environments, testing, technical documentation, and process improvement. My technical exposure is complemented by professional certifications in networking, cybersecurity, programming, and data analytics.

My professional certifications include:

- CCNA: Introduction to Networks
- CCNA: Switching, Routing and Wireless Essentials
- Introduction to Cybersecurity
- Networking Basics
- Python Essentials 1 & 2
- JavaScript Essentials 1 & 2
- Data Analytics Training (ICT Authority Kenya & Data Breed Africa)

I am particularly motivated by this opportunity because the responsibilities closely align with my experience and career interests, including ICT equipment installation and maintenance, network support, server and application support, patch management, website maintenance, helpdesk operations, system documentation, performance monitoring, and end-user training and support.

I am confident that my technical foundation, willingness to learn, strong analytical ability, and commitment to quality service delivery would enable me to contribute effectively to the Council's ICT objectives.

Please find attached my application documents including curriculum vitae, academic and professional certificates and identification documents for your consideration.

Thank you for your time and consideration. I look forward to the opportunity to discuss how my background and skills can contribute to NCPD.

Yours faithfully,

KIPROTICH RONALD
